- **DevOps:** Git, Docker, CI/CD, Digital Ocean, CPanel, Apache, Nginx
- **OS:** Linux, Windows

EDUCATION

B.Sc. in Computer Science & Engineering (CSE)
City University | Jan 2018 – Dec 2022 | CGPA: 3.52 / 4.00

KEY ACHIEVEMENTS

Competitive Programming (CP) | LeetCode (https://leetcode.com/u/anwarhossain7736)
Solved problems in MySQL, PHP, JavaScript, and Java, strengthening my problem-solving, database, and algorithm skills. Enhanced my ability to write efficient, optimized code across multiple technologies.

WORK EXPERIENCES

Software Engineer

Metal Studio Pvt. Ltd.
07/2025 - Present

1. **Pharmacy Management & POS System**
   Features & Contributions:
   - **Sales & Purchase Exchange:** Added and improved exchange features in the sales and purchase module.
   - **POS Discount Control:** Set user-wise discount limits on products and total sales.
   - **Role-Based Category Access:** Restricted certain categories and products based on user roles.
   - **Purchase Keep Alive:** Prevented data loss when selecting many products during purchase (page reload/power issues).
   - **Reports & Smooth Export:** Developed Profit/Loss and User Collection reports Excel export using AJAX.

   Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, MySQL, Laravel.
   Clients: St. John Vianney Hospital, Tamanna Pharmacy, Doctors Pharma, Biocyte Healthcare Ltd.

2. **Resort Management System**
   Features & Contributions:
   - **Building & Floor Management:** Managed buildings, floors, reservations, check-in/check-out and real-time room availability.
   - **Room Mapping:** Assigned buildings and floors to rooms for easy filtering and management.
   - **Room Layout & Booking:** Designed floor-wise layouts with date and status filters; supported multi-room booking with extra options.
   - **POS & Payment Integration:** Integrated booking and POS payments; restricted checkout until cleared all dues.

   Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, MySQL, Laravel.
   Clients: Pyramid Point Resort, Dhaka.

Software Engineer

Motion Soft

07/2023 - 06/2025

1. **E-commerce Websites**

   1.1 https://www.motionview.com.bd

   1.2 https://techtime.com.bd

   Features & Contributions:

   - **Career Management:** Managed job posts from the backend and developed REST APIs for the website.
   - **Blog Management:** Implemented blog create, update, delete features with REST API support.
   - **Order Sync to ERP:** Synced eCommerce orders to ERP using webhook APIs.
   - **Student Verification & CLP:** Verified students and set product pricing and integrated customer loyalty points (CLP) via backend and API.
   - **Code Optimization & Upgrade:** Improved query performance, reduced response time and upgraded to the latest version.

   Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, MySQL, Laravel.
   Clients: Motion View, Am Gadget, Techtime.

2. **B2B & ERP Software**

   Features & Contributions:

   - **HRM Module:** Developed a complete HRM system including face attendance, leave, loan, overtime, salary generation, office/holiday setup, approval workflows, bulk upload with queues, and web/API push notifications.
   - **Warranty Module:** Built product warranty management with repair, replace, exchange, accounting adjustments, and report generation (web & API).
   - **Report Optimization:** Optimized complex reports (Balance Sheet, Trial Balance, user/outlet collections, technician warranty) to reduce response time and prevent server timeouts.
   - **Courier API Integration:** Integrated third-party courier APIs such as Pathao, RedX, eCourier and Steadfast using webhook systems.

   Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, MySQL, Laravel.
   Clients: Motion View, Oraimo, Techtime.

3. **AMAR POS Software**

   Features & Contributions:

   - **Responsive Dashboard Design:** Built a responsive and user-friendly dashboard using Tailwind CSS.
   - **POS Billing:** Developed fast and accurate invoicing for retail and wholesale sales.
   - **Inventory & Role Management:** Implemented role-permission control with real-time stock tracking (SKU, batch, serial, expiry, low-stock alerts).
   - **Payment Gateway Integration:** Integrated payment gateways like bKash, Nagad, and SSLCommerz.
   - **Reports & Order Hold:** Generated accounting and sales reports and added order hold functionality for later processing.

   Technologies: HTML, Tailwind CSS, React.js, Next.js, PHP, MySQL, Laravel.
   Clients: Motion View and others.

Jr. Web Developer

Soft IT Security

07/2022 – 06/2023

1. **POS Software**

   Features & Contributions:

   - **Supplier Payment:** Implemented supplier payment management inside the system.
   - **Sale Archive & Reports:** Added sale archive (soft delete with logs) and developed archive sale reports.
   - **eCommerce Website:** Built a complete eCommerce website for the POS system using Laravel and Vue.js.

   Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, Vue.js, PHP, MySQL, Laravel.
   Clients: Live Shopping, Vintage Bake & Café and others.
