2. Resort Management System

Features & Contributions

- **Building & Floor Management:** Managed buildings, floors, reservations, check-in/check-out and real-time room availability.
- **Room Mapping:** Assigned buildings and floors to rooms for easy filtering and management.
- **Room Layout & Booking:** Designed floor-wise layouts with date and status filters; supported multi-room booking with extra options.
- **POS & Payment Integration:** Integrated booking and POS payments; restricted checkout until cleared all dues.

Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, MySQL, Laravel.

Clients: Pyramid Point Resort, Dhaka.

Software Engineer

07/2023 - 06/2025

Motion Soft

1. E-commerce Websites

[1.1 https://www.motionview.com.bd](https://www.motionview.com.bd)

[1.2 https://techtime.com.bd](https://techtime.com.bd)

Features & Contributions

- **Career Management:** Managed job posts from the backend and developed REST APIs for the website.
- **Blog Management:** Implemented blog create, update, delete features with REST API support.
- **Order Sync to ERP:** Synced eCommerce orders to ERP using webhook APIs.
- **Student Verification & CLP:** Verified students and set product pricing and integrated customer loyalty points (CLP) via backend and API.
- **Code Optimization & Upgrade:** Improved query performance, reduced response time and upgraded to the latest version.

Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, MySQL, Laravel.

Clients: Motion View, Am Gadget, Techtime.

2. B2B & ERP Software

Features & Contributions

- **HRM Module:** Developed a complete HRM system including face attendance, leave, loan, overtime, salary generation, office/holiday setup, approval workflows, bulk upload with queues, and web/API push notifications.
- **Warranty Module:** Built product warranty management with repair, replace, exchange, accounting adjustments, and report generation (web & API).
- **Report Optimization:** Optimized complex reports (Balance Sheet, Trial Balance, user/outlet collections, technician warranty) to reduce response time and prevent server timeouts.
- **Courier API Integration:** Integrated third-party courier APIs such as Pathao, RedX, eCourier and Steadfast using webhook systems.

Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, MySQL, Laravel.

Clients: Motion View, Oramo, Techtime.

3. AMAR POS Software

Features & Contributions

- **Responsive Dashboard Design:** Built a responsive and user-friendly dashboard using Tailwind CSS.
- **POS Billing:** Developed fast and accurate invoicing for retail and wholesale sales.
- **Inventory & Role Management:** Implemented role-permission control with real-time stock tracking (SKU, batch, serial, expiry, low-stock alerts).
- **Payment Gateway Integration:** Integrated payment gateways like bKash, Nagad, and SSLCommerz.
- **Reports & Order Hold:** Generated accounting and sales reports and added order hold functionality for later processing.

Technologies: HTML, Tailwind CSS, React.js, Next.js, PHP, MySQL, Laravel.

Clients: Motion View and others.

Jr. Web Developer

07/2022 – 06/2023

Soft IT Security

1. POS Software

Features & Contributions

- **Supplier Payment:** Implemented supplier payment management inside the system.
- **Sale Archive & Reports:** Added sale archive (soft delete with logs) and developed archive sale reports.
- **eCommerce Website:** Built a complete eCommerce website for the POS system using Laravel and Vue.js.

Technologies: HTML, CSS, Bootstrap, JavaScript, jQuery, Vue.js, PHP, MySQL, Laravel.

Clients: Live Shopping, Vintage Bake & Café and others.
